COMPREHENSIVE PLAN VISIONING WORKSHEET

DEVELOP
LOUISVILLE

For the Comprehensive Plan 2040 update, five principles have been identified as crucial for the future of the Louisville Metro community: Connectivity; Health; Authenticity; Sustainability; Equity. Please help us define these concepts and give us your ideas for each.

What will make Louisville Metro a more **CONNECTED** community?

What will make Louisville Metro a more **HEALTHY** community?

What will make Louisville Metro a more **AUTHENTIC** community?

What will make Louisville Metro a more **SUSTAINABLE** community?

What will make Louisville Metro a more **EQUITABLE** community?

Theme Definition

RESULTS PENDING – *Will be presented 11/15.*

Theme Definition Exercise

Vision Statement

Cornerstone 2020

Vision Statement

In our vision of 2020, Louisville and Jefferson County is a community widely recognized for its high quality of life, sense of tradition and competitive spirit. Our children have inherited a livable, vibrant and economically diverse community. We have clearly recognized that the quality of life depends upon continued success in the economic marketplace and an on-going commitment to the conservation of environmental resources which define our heritage and enhance the livability of our community.

Community residents share a sense of place and take great pride in their established and emerging neighborhoods which are culturally and economically diverse. Residents are proud of their differences in heritage and culture. Economic and educational opportunities are available to all residents, in every neighborhood. Every neighborhood is a safe place to live.

The community enjoys a rich fabric of urban and suburban areas, interwoven with environmental resources, accessible parks, open space and the Ohio River Corridor, all representing a heritage of natural beauty. A multi-modal transportation system serves and ties together the entire community. Unified government services enhance the ability of the community to speak with a single voice in matters related to the investment of human, environmental and capital resources.

The Cornerstone 2020 Vision for Louisville and Jefferson County is nothing less than the best of the past merged with the best of the future, creating a community where all residents can grow and prosper.

As approved by the Cornerstone 2020 Policy Committee.

Next Meeting

January 24, 2017
